COMPELLED CIRCUS PEOPLE

TO GIVE PARADE.

No parade, no afternoon performince-was the dictum that Mayor T C. Murphy, President James C. Macpherson and H. M. Lerou of the Board of Trade, First Selectman A. W. Lillibridge and Town Counsel Thomas W. Shields issued to the Barnum & Bailey corcus management of the greatest show on earth Tuesday afternoon, after an announcement had been made here shortly before noon that 298, there would be no parade of the cir-

exciting moments in it, the circus management capitulated and agreed to give the parade.

streets about 3 o'clock with three bands of music, a number of riders on horseback, a dozen camels and 21 elephants in line, and was seen by big crowds on the streets who had been waiting for it.

Because of the late parade, the afternorn performance was also late as it was held up until the parade returned in order not to detract any from the opening grand march of the circus pageant.

Norwich has never had such a turnout for circus day as appeared on Tuesday, when it seemed that all the surrounding towns must have emptied themselves to pour thousands of people into the streets of the city. When the men named learned that there was to be no parade, they went to the fair grounds in H. F. Dawiey's automobile, where they indicated em-phatically to the circus management that the parade must be given or the license to give the afternoon perform-ance would be revoked, although the

evening show would be permitted.

When the Norwich men reached the tent the circus management were not going to allow anybody but Selectman to attend the conference, but the other men insisted, and when the major threatened to call Constable Myer Blumenthal the circus management weakened and allowed all to attend. The Norwich men stated that their

about the parade, which had been advertised, rain or shine, and had been the means of bringing many people to the city for all day.

In the afternoon and evening per-formances the oircus had a full tent at each and gave a fine and varied performance up to the Barnum standard. The trolley company handled the traveling crowds with about 30 extra

LAYS CITY TAX OF II MILLS

Citizens Pared Down the Extras Including Thames Street Improvements—Franklin Street Widening Voted—\$1,500 PLANS BOOK Added to Appropriation for Fire Department-Will Give Firemen Increased Pay They Asked.

raise \$146,465.63 on the city's grand list of \$13,315,058, was laid on Tuesday evening in the annual city meeting in the town hall, which had an attendance of about 100 men, when Mayor T. C. Murphy called it to order shortly after 8 o'clock. Within a few minutes Norwich Officials Insisted on Parade after the meeting opened this number

If Afternoon Performance Was to Be had been increased by about 50 men.

The tax laid is one mill more than the common council had recommended and is one-quarter of a mill more than the city tax of last year. Of the amounts in estimated expenses rec-ommended by the common council all were voted and one was increased by \$1,500. This was the appropr for fire department which was This was the appropriation

by the meeting from \$34,500 to \$36,-000.

Of the extras which were included in the call for the meeting and which totalled \$53,127 in fifteen items, only five were voted. These totalled \$11,-

After Mayor Murphy had called the the Plainville M. E. camp ground July fair grounds, where the circus was to show, which was not without some ly on motion of Corporation Counsel Joseph T. Fanning. Joseph T. Fanning.
As the various items were brought

up Mayor Murphy had the last year This was necessarily somewhat abfigures at hand, usually giving the figbreviated because of the lateness of
the hour, but it came through the
up in order. The first was for \$32,000 for ordinary repairs, last year \$33,000.

Wanted Ordinary Repairs Cut. Frank T. Comstock asked what the appropriation was two years ago and was told it was 29,000. He said he understood the extra money was for the side streets and he thought these could wait a year, while something to show be done on the main streets. He amended the amount to \$29,000, but it was not seconded. Samuel Crooks of Oak street spoke for the side streets saying that they had to pay taxes and were choking with dust while the main streets were being watered. The \$32,999 was voted.

The Item of outside work, \$2,000. was opposed by Samuel Crooks, who amended to make it \$1.500.

Alderman M. H. Hourigan explained that \$3,000 would be received back for this outside work and the mayor and Alderman Gebrath also said that that \$1,500 had been appropriated for outside work and \$1,900 had been received back in this department. Mr. Fanning asked for an explanation of why the amount was made \$1,500. The amendment was lost and the original amount voted. amount voted.

Ne Opposition to These.

The following amounts as recom mended were voted without comment Garbage and ashes \$7,000, last year \$6,500; sewers and catch basins \$2,500 \$5,000; sewers and catch basins \$2,000, same as last year; macadam repairs \$7,500, last year \$6,000; oiling and sprinkline \$7,000, last year \$6,500; parks and trees \$2,000, last year \$1,500; widening Water and Shetucket streets, unexpended balance \$462; relaying Yantic street sewer, \$640; new Thames street sewer, \$230; department of cemeteries, \$7,500, same as last

Increase for Fire Department When the appropriation of \$34,500 received \$32,000, Alderman Thomas H. Beckley, who has been chairman of the fire commissioners, made an ex-planation of the reasons why the advance was asked. He said that the fire commissioners had asked for \$36 -000, which the finance committee had cut down to \$34,500. He said that the men were asking for an increase in pay which would mean about \$3,000 more in the expenses of the departmore in the expenses of the department over last years' payroll. They want to be put on a par with the pollcemen's pay. Alderman Beckiey went through the estimates and expenditures last year, showing how each expenditure had been within the amount estimated for it, although sometimes by a margin of cents. If we get the \$34,500, he said, we will deal fairly with the men, but if we get the \$35,000 we will increase the wages more nearly to the schedule of the pollcemen.

policemen. Former Councilman John H. Ryan seconded the motion, and Edward T. Burke moved to amend the amount to Surke moved to amend the amount to \$36,000. John H, Mussell spoke in favor of the increase, as did Mr. Burke in favor of placing the men on the same basis as the policemen. Mr. Burke spoke of the long hours of the firemen and described how one man lost his fingers which were frozen to the line of hose at the Marguerite fire and how the Falls company had to walk to the Swedish church fire here. walk to the Swedish church fire be-cause it was dangerous to drive. Albert Boardman seconded the amendment with the understanding

that increase in pay be made. This provise brought forth applause. W. W. Beckwith spoke for the \$38,000, and it was voted with two voices crying "No!" Appropriations Voted. These department estimates were voted without remark: Police depart-ment, salaries and expenses, \$27,945, ment, salaries and expenses, \$27,945, same as last year; city court, \$3,850, same as last year; street lighting, \$19,-000, same as last year; health department, \$1,500, same as last year; gas and electrical department, \$143,000, last year \$185,000; interest on \$400,000 bonds, \$20,000; park department, \$5,-000, last year \$4,500.

In Finance Department. In the finance department the fol-

An eleven mill city tax which will raise \$146,465.63 on the city's grand list of \$13,315,058, was laid on Tuesday evening in the annual city meeting in the town hall, which had an attendance of about 100 men, when Mayor T. C. Murphy called it to order shortly after 8 o'clock. Within a few minutes after the meeting opened this number had been increased by about 50 men. The tax laid is one mill more than the common council had recommended.

Extras.

The consideration of the so-called extras was taken up after the items recommended by the common council had been disposed of,

Widening of Franklin Street, The first was \$8,300 for the widening of Franklin street, which the mayor said he thought ought to be done and that the price was reason-

J. J. Corkery spoke for it, recalling the time ten years ago when the letin company gave the city of Nor-wich about 485 square feet of frontage for the widening of Franklin street in the near future, in accordance with a building line from their building down to the Bath street corner. Mr. Corkery described what had already been done in improving about 200 feet of the street and this was an import-ant public improvement which the city is obligated to make, morally and legally. He said he would present a motion later which would make the payment fall lightly on the taxpayers. Mr. Hoelek, who lives on the oppo-site side of the street, said he was willing to give land on his side of the street to straighten the building line there, and spoke of a building which protruded beyond his and of the way the sidewalk was blocked.

Civil Engineer George E. Pitcher explained that the sidewalk on Mr. Hoelck's side of the street was nowhere less than 6 feet wide

The appropriation was voted, Killed Thames Street Improvements The item of \$8,533 for Thames street and Thames square pavement and \$3,533.80 for West Thames street pavement, were laid on the table after William W. Beckwith had made a vigorous speech against them. He called attention to a postal card he had seen inviting automobile owners to support the measure. He declared this was trying to vote away the money of the middle and working class for the benefit of the trolley road and asked why not let the elec-tric road bear the burden as it was not known yet what could be done in not known yet what could be done in this street. On the last city tax rate he figured that the automobiles owned in Norwich. over 200 in number and valued at \$102.105, would pay a tax of \$1.097.62, which was about one-eighth of the proposed appropriation. He challenged the knowledge of the Board of Trade as to roads and particularly as to Hassam pavement and instanced a number of cities in the south and west which are putting in block pavement.

He referred to the way Thamesville had exceeded other sections of the city in the building of new dwelling houses, which had been built to the extent of \$150,000 in the last few years and declared that even Heaven would be reached by passing through some most unpleasant ways. As he con-cluded by stating that this was the opening wedge for the expenditure of from \$100,000 to \$150,000 in this street for the benefit of the railroad, he was applauded and the meeting voted to lay both matters on the table. a viva voce vote, which the mayor called for twice before he declared the result.

Sachem Street Improvement.

The sum of \$1,618.20 was voted for cortinuing the Suchem street improvement from Uncas street to Yanti street. F. A. Robinson made the mo-tion and Civil Engineer Pitcher ex-plained the conditions in regard to this street. Mr. Robinson said the property owners were anxious to lay granolithic pavements, but this street in provement needed to be done first. When Mr. Ryan learned that the sums already voted were fast ap-proaching an eleven mill tax, he moved to have all the other items indefinitely postponed. He was the only one who voted for it and it was declared lost. Five hundred dollars was voted for

Lake street playground, but \$2,875 for pavement on Broad street from Mc-Kinley avenue to Warren street was indefinitely postponed. Drain Fanning's Pond. Civil Engineer Pitcher explained the item of \$500 for draining Fanning's pend, which was approved of by state, county and city health officers, and described how a property owner there is to build a private sewer to dra'n l'anning's pond, and it will be economy new for the city to do this work. The

Sum was voted.

The sum of \$280 for Harrisen avenees were was voted after Civil Engineer Pitcher had shown how some cellars in that section received sewage and that the six inch sewer pipe will be replaced by a ten inch pipe.

Indefinitely Postposed.

Indefinite postponement was the fate of \$5,877 for continuing culvert at Lake street playground, \$400 for band con-certs, \$800 for wall for Charles Burton on North Main street, \$315 for Rose place pavement, \$2,500 for extending wall at municipal dock, \$3,600 for top dressing with asphalt the block pave-

at houses, expert architects. But my policy of lumber, all materials and a policy of lumber, all materials and a policy of the lowest prices.

Prespian been given big execting flee. trongry Word & Company, How York, S.

ment from Laurel Hill bridge to the courthouse, and \$6,700 for macadamiz-ing Union street.

Would Not Hear Reconsider Claim. Thomas M. Shields was on his feet to put a motion regarding the Burton matter, but was not noticed by the mayor until the vote had been taken on the matter. Then he wished to put on the matter. Then he wished to put a motion to reconsider, but was not allowed to on a point of order raised by William W. Beckwith and Corporation Counsel Fanning. Later Mr. Corkery made a motion for reconsideration, so that Mr. Shields might have a chance to speak on the matter, but the matter, world against it.

meeting voted against it.
On the Union street macadamizing
Felix Callahan spoke and said that there were just as good arguments for it as could be made for many of the things that had already been voted and he moved that it be the sense of the meeting that the matter be put in next

ear's estimates.
Corporation Counsel Fanning offered the resolution authorizing the appropriations, and a tax of eleven mills The compensation of the tax collect

or was made one per cent. of the amount collected. amount collected.

Tax abatements totalling \$188.50 and \$37.27 for street sprinkling were abated. There were 39 names in the first list and 9 in the latter. The meeting sanctioned a deed from the city to George E. Fellows of a small strip of land on Lake street, and
